Chapman International College (CIC)

: The New Name for Southeast Asia Nazarene Bible College (SEANBC)

Vision 2025

(2020-2025)

Moto: Entrusted to Entrust (2Tim 2:2)
Message from Chancellor

Warm greetings from Bangkok.

Southeast Asia has been experiencing delayed development even after the end of World War II. In this field, many people still vividly remember tragic Vietnam War, The Cambodian genocide (so-called Killing Fields), communist and military regimes, natural calamities and many mores. Furthermore, Southeast Asia is considered as the dominant Buddhist region in the world, and the least economically developed countries in ASEAN nations. These political, social and economic situations in this mainland Southeast Asia also challenges for the advancement of Kingdom of God.

Yet we believe God is working even in the midst of hopeless situation. He has a plan to restore the a broken wall of Jerusalem in this field. We believe that Chapman International College (CIC) is a part of God’s restoring plan in this field. CIC was established in 2005 with the vision to train pastors and lay leaders in multi-site, multi-language, multi-context, and multi-delivery system. With the new passion of our administration, CIC has again reshaping our vision, mission, and goals for the coming five years till 2025. The new vision includes adding new degree and non-degree programs, establishing multiple new extension centers in the field, equipping fully qualified local professors in each center, and also working towards full academic accreditation. Together with the board of regent, faculty members and administration, and prayer partners and supports, I am committed to work towards the great change for the future.

We are committed to Christ. Our ultimate goal is to make Christ-like disciples (Matthew 28:18-20) and Good Shepherds (John 10:11-15) who can sacrifice oneself for the Lord and the Lost. Our graduates will be planting the community of believers wherever they are, as John Wesley said, “I look upon all the world as my parish.”

Thank you for partnering with Chapman International College. Together with you, we can see the future of the field in God’s hand.

Dr. Donghwan (Bill) Kwon
Chancellor
Brief History

Chapman International College (CIC), originally named Southeast Asia Nazarene Bible College (SEANBC), was part of a dream that began when the Southeast Asia Field was created in August 1991. Consisting of the five nations of Cambodia, Laos, Myanmar, Thailand and Vietnam, the Southeast Asia Field is home to 230 million people, encompassing 400 languages and people groups. The Church of the Nazarene began preaching the holiness message throughout Southeast Asia: in Myanmar (1984), Thailand (1989), Cambodia (1992), and Vietnam (1994).

In 1996, it became apparent that the SEA Field needed training facilities to meet the educational needs of the field. The formation of Southeast Asia Nazarene Bible College (SEANBC) was approved to serve as the “umbrella” school for the entire five-nation field. However, SEANBC was not permitted to build a traditional campus as a base. Thus, from the very beginning SEANBC was compelled to look to an Extension Center education format to prepare ministers for ordination and to offer quality Christian education to youth.

The SEANBC administrative center was established in Bangkok (1996) with supporting national hubs or learning centers throughout each country on the field. Extension classes are now taught in both residential and non-residential learning centers. Because much of the outside resources are poured into providing teachers for the learning centers, SEANBC developed the “teach/re-teach” concept for the extension centers (2Tim 2:2).

SEANBC has employed a number of teaching methods in its nearly two decades of existence. While the Yangon program began as a residential campus (in 1999) and the Northern Thailand campus also followed the residential pattern, classes in most of the other locations have been offered as one-week, 30-hour “intensives.” Night classes have been successful in Bangkok, enabling students with other jobs to attend classes after work. Block courses, or back-to-back intensive classes, are additional options that have helped accomplish the task of equipping pastors and leaders for the work to which God has called them.

Rapid Expansion:

In 2015, the administration and BoR members prayerfully articulated “Vision 2020” with the new vision statement: “Committed to be the leading innovative ministerial education provider for Southeast Asian people.” Vision 2020, which has been adopted by each nation in Southeast Asia, focuses on expansion with the goal of 20 extension centers and 600 students by 2020.

SEANBC has exceeded vision 2020. According to the 2017-18 Chancellor’s report to the Board of Regents, the number of active students reached 792 with 41 learning centers. This is an historic enrollment record and number of learning centers.

Mobile Education Program:

In 2016, Global Mission granted 45,000 USD for mobile education program. Through the funds, SEANBC began creating “teacher generated contents” and trained teachers teaching online program. Joel Kim, a Korean missionary from the organization, “INTERSERVE” joined as mobile education program director. In 2017, a group of 9 Myanmar students from Indianapolis, USA, joined the first Mobile Education program. In 2018, Thailand program was launched and soon there are more than 100 students studying in the mobile education program.
On February 12-14, the Board of Regents and the key administration team members of the Southeast Asia Nazarene Bible College met at Bangkok Christian Guest House in Bangkok, Thailand to plan for the future of the college. After much prayer and discussion, the Board unanimously voted to change the name of Southeast Asia Nazarene Bible College to Chapman International College (CIC). The multi-nation, multi-campus, and multi-level nature of the college will remain the same, as will the mission to provide quality lay and ministerial Christian education for Southeast Asia.

As a result of the new name change:
1. CIC will be able to provide broader educational opportunities, such as allowing Myanmar to offer more than a Bachelor of Theology.
2. Ministry opportunities in Creative Access Areas (CAA) will be greatly expanded on the Southeast Asia Field.
3. CIC might be able to register as a legal educational institution and provide educational opportunities in each of the five nations of Southeast Asia, even in CAAs.
4. Legal registration could potentially allow volunteers and partners to apply for visas securely through our educational institution.

Chapman is the name of our late General Superintendent Emeritus, Dr. J. B. Chapman (1928-1947). Dr. Chapman was known as a pioneer in the Holiness movement and education. Dr. Floyd Cunningham, distinguished professor of church history serving at the Asia-Pacific Nazarene Theological Seminary, wrote, “Dr. J. B. Chapman had very strong interests in both education and missions. He was actively and eagerly engaged himself in travel to world areas, including China. He was also the one who pushed for the founding of Nazarene Theological Seminary (NTS) in Kansas City.”

Dr. Chapman also had a special connection to Myanmar and Southeast Asia. After their retirement, Dr. Chapman’s wife, Mrs. Louise Robinson Chapman, was able to meet a young and passionate Myanmar pastor, Robin Seia, who came to study at Fuller Theological Seminary. Mrs. Chapman had a Godly influence on Robin Seia which lead to an opportunity for Robin Seia to join the Church of the Nazarene. Dr. Robin Seia returned to Myanmar and established a Church of the Nazarene in Myanmar and the Southeast Asia Nazarene Bible College, Myanmar. According to Dr. Cunningham, “[The Chapman name] will transmit our [Nazarene] heritage and at the same time provide a link to Myanmar and Southeast Asia.”

The word “International” conveys the College’s educational responsibility to more than one nation. This name also communicates that the goal of the college is to educate international leaders for Southeast Asia and beyond. A multi-lingual policy (English and national language) will be one of the core educational policies of the college.

On February 23, at the General Board meeting, International Board of Education (IBOE) has approved this name change.
