MESSAGE FROM THE CHANCELLOR

Southeast Asia has been experiencing delayed development even after the end of World War II. In this field, many people still vividly remember the tragic Vietnam War, the Cambodian genocide (Killing Fields), Communist and military regimes, natural calamities and many more. Furthermore, Southeast Asia is considered as the dominant Buddhist region in the world, and are among the least economically developed countries in the ASEAN nations. These political, social and economic situations in Southeast Asia also add challenges for the advancement of the Kingdom of God.

Yet we believe God is working even in the midst of this hopeless situation. He has a plan to restore the broken wall of Jerusalem in this field. We believe that Chapman International College (CIC) is a part of God’s restoration plan in this field.

CIC was established in 2005 with the vision to train pastors and lay leaders in a multi-site, multi-language, multi-context, and multi-delivery system. With the new passion of our administration, CIC is again reshaping our vision, mission, and goals for the coming five years to 2025. The new vision includes adding new degrees and non-degree programs, establishing multiple new extension centers in the field, equipping fully qualified local professors in each center, and working towards full academic accreditation. Together with the board of regents, faculty and administration, along with prayer partners and supporters, I am committed to work towards the great change for the future.

We are committed to Christ. Our ultimate goal is to make Christ-like disciples (Matthew 28:18-20) and Good Shepherds (John 10:11-15) who can sacrifice oneself for the Lord and the Lost. Our graduates will be planting the community of believers wherever they are, as John Wesley said, “I look upon all the world as my parish.”

Dr. Donghwan (Bill) Kwon
Chancellor

I enjoy learning and sharing the ministry of God. I am preparing my life to be a pastor in the future, so I tried my best to join CIC classes and learn many things so that I could teach and share my learning experience in the ministry. I want to become a servant of God and prepare my spiritual life to be more mature and serve Him as much as I can.

I feel so happy to be a CIC student and learn courses that helped me not only understand biblical concepts, but gain spiritual strength. I really feel that I am closer to God. Today, I am serving in the church and helping church leaders by sharing what I learned.

As a student of an Extension Center, I am very grateful to the professors who are teaching us many courses. The CIC teachers and pastors helped me understand more about the ministry. I continue to self-study and read lessons from CIC so that I can share it with my church. I now have a clearer vision to go and make Christlike disciples into the nations.

7 IMPLEMENTATION PLANS

MOBILE PROGRAM DEVELOPMENT
Develop Mobile education programs in 5 countries

COS TRANSLATION:
Complete translation of Course of Study for 8 Major Southeast Asian languages

FACULTY DEVELOPMENT
Develop 5 doctoral and 20 masters level faculty members in five countries

FACILITY DEVELOPMENT
Build sustainable 10 learning centers and 5 campus facilities

LIBERAL ARTS PROGRAM:
Develop Liberal Arts degrees and various vocational courses

ACCREDITATION:
Pursue academic accreditation through reputable agencies

PARTNERSHIP DEVELOPMENT:
Develop prayerful partners for student scholarship and other special projects.
Many CIC students are eager to learn but financial difficulty hinders them to complete their studies. Many are also bi-vocational ministers whose primary passion is to save the lost and plant missional churches where they are. By donating 40 USD per month (480 USD per year), one student can continue to study and fulfill their call to ministry.

Faculty development is one of the most important parts the CIC facilitates. This fund assists national faculty who wish to pursue advanced degrees with tuition and related expenses, which helps facilitates the expanded indigenization of faculty from the SEA field. CIC envisions to educate 3 doctoral and 40 masters level faculty members in 5 countries.

National directors and principals are key leaders to success in the life of the college. CIC sees the crucial need of continuing education and training of top level administrators for each nation. This LDP will enable to send our national leaders to pursue their professional and administrative skill development.

The 21st century college is accessible. CIC envisions to offer mobile education program for those who are called to ministry but not able to attend formal and transitional bible college. CIC envisions to provide the full Course of Study (ministerial preparation) for 8 major Southeast Asian langurs in 5 countries.
Uniform curriculum and handbook for the entire Course of Study (ministerial preparation) is such a crucial part of college education. CIC envisions to make it available for 8 major languages in SEA field.

This will enable the administration office to function more effectively. We need a 12 seater school van.

Every educational institution seeks to raise funds that last. CIC endowment will provide sustainable income for college in the long run.

Efficient facilities provide foundations for growth and development. CIC seeks to provide 10 small but multi-functional extension centers that bring education where there is no church. CIC envisions to establish 5 small scale campuses strategically in Myanmar and Thailand. Besides classrooms, these campuses will need libraries, computer labs, dormitories, cantines, and IT.
HOW TO SUPPORT
